

Hello everyone! My name is Joanna Lee and I am from Vancouver, Canada. I graduated from Simon Fraser University with a bachelor in business. Soon after graduation, I realized my real passion is towards teaching young children. I then decided to continue my study in Early Childhood Education at the Hong Kong Institute of Education. This is my fourth year teaching in an early childhood setting as I have previously been teaching preschool in Japan and KinderU in Hong Kong. I love teaching kindergarten and feel very grateful to have the chance to work in such a prestigious school. This is my first year at Victoria Kindergarten and I am really excited to be teaching Pre-Nursery and meeting all of you.
