Message from Interim Director of VEO
執行校長的話

Ms Lyn CHEETHAM

Dear Parents,

In this first edition PTA newsletter after the break, I would like to say a big hello, and to thank all of you for your support of everything we do at VEO. I also wanted to take this opportunity to invite you to become an integral part of our organisation. We are proud of our record of parent/teacher co-operation, and of the role played by the members of the PTA.

Extensive research shows that this working together is absolutely vital for children to maximize their potential. The benefits of such a combination flows in all directions, touching on, and strengthening all elements in school, and in wider-life experiences.

Parents can assist in many different, and often rewarding ways, such as reading and helping with craft work in the classroom, organising special activities, playing a role in field trips, or even by participating in a Parent/Child Sports Day.

I strongly believe that an energetic, informed and friendly PTA is an essential element in any school's organisation. I am looking forward to meeting all of you and for your continued support.

Please come and say hello if you can, when you see me in one of your campuses.

All the best,
Lyn CHEETHAM
Interim Director of VEO

This year we have a very strong and experienced team of Principals and Staff who are happy to be working in close partnership with the Parent Teacher Association.

It has been a very exciting and event-filled year so far, with many activities, seminars and workshops for our students and their families to join.

The seminar on 'Play and Resilience' that was held during the Annual General Meeting was informative and reminded us how important it is for children to learn through play during the early years. The PTA mini Christmas pot and the PTA Christmas Music Box put us in a festive Christmas spirit.

Now we look forward to our upcoming Easter trip to Okinawa, Japan, which should prove to be an enjoyable, educational tour that will include an exchange with a local Japanese school.

Thank you to all the PTA Executive Committee members for your efforts and we appreciate the participation and the continued support of all of our Victoria families this year.

Happy Chinese New Year! Time is certainly flying by and we are halfway through the school year! The past few months have been a whirlwind of activity within the PTA.

First and foremost, we have seen important and positive transitions in the PTA structure - we have moved from a centralised PTA to a campus-based PTA whereby every campus has its own executive sub-committee, each being led by a Chairperson on the parents' side. This not only allows each campus more flexibility in its decision-making process, but more importantly, it is tailored to each campus' particular needs and helps to build an even more closely knitted community within each campus. At the same time, all campuses retain a consistent approach and theme through the close relationship retained with the school's teachers and management. Despite the new structure, you can rest assured that our common goal still remains the same which is to support parent-school collaboration.

In the past few months, we have had a number of fun, exciting and informative events, both VEO wide and campus-based. To name a few ; the meeting with NASA's first Chinese astronaut, Dr Leroy CHIAO, the "Dance, Sing and Laugh with Scotty of Scotty & Lulu!" show, the "Puppet Show and Workshop - the Magical Adventure of Peter Pan!" were all very well-received and attended! Thank you to everyone involved in organising those efforts and to all who participated.

Going forward, we have more exciting and interesting events, both VEO side and campus based. We will also continue to support the school's educational trip to Okinawa, various graduation activities and more.

Last but not least, we would like to thank all PTA members, the school and parents for your valuable support and for giving us such a rewarding experience whilst serving on the PTA. Please lookout for our upcoming activities and we look forward to seeing you at our events again!

The 22nd Annual General Meeting & Seminar on "Play and Resilience"
第22屆週年會員大會暨「玩樂和適應力」講座

Chief Coordinator 統籌委員：Mrs Alice CHUNG
Sub-committee 小組委員：Mrs Shirley WONG and Mrs Wendy WONG
Speaker 講者：Dr Maggie KOONG, BBS, JP and Dr Mami UMAYAHARA

At the AGM, we shared with our members the amazing activities we've organized in the previous year. We also expressed our deepest gratitude to our Chairperson, Mrs Anita TANG, who has been serving the PTA for 11 years, and all the other Excoms who have been extremely dedicated in organizing fun and educational events for our parents and students. More happily, we also welcomed all the newly elected Excoms to this big PTA family!

After the AGM, we were honored to have invited Dr Mami UMAYAHARA and Dr Maggie KOONG to jointly conduct a seminar on "Play and Resilience". Dr UMAYAHARA and Dr KOONG discussed the importance of play in supporting the development of children's characteristics and strengths that are associated with resilience, such as sharing, perspective taking and negotiation skills, and how parents and families play to support young children's resilience building.

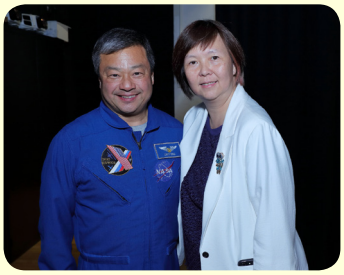
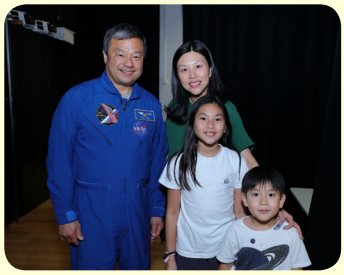
Meeting Dr Leroy CHIAO, First Chinese Astronaut from NASA
與美國太空總署第一位中國太空人焦立中博士有個約會

Speaker 講者：Dr Leroy CHIAO





Meeting an astronaut is one of the most memorable, exciting and exotic experience in a lifetime. I have never thought of meeting a real astronaut in person. Meeting the first Chinese astronaut from NASA is just irresistible!

During the seminar, Dr Leroy CHIAO shared with us the qualities to become an astronaut and his "life-changing" space adventures. We also learnt that there are high academic and physical expectations to become an astronaut. Dr CHIAO mentioned that he wanted to become an astronaut since he was young. In order to become one, he has worked very hard to prepare himself, and became an engineer by profession. He also tried to maximize his exposures by working extensively in academia, government labs, commercial ventures and technology startups, where he geared himself to become knowledgeable. Most importantly, he managed to maintain his body to be healthy and fit to meet the physical criteria.

Dr CHIAO is a humble and kind gentleman. He was very willing to answer simple questions raised by the kids and welcome in photo-taking. This was one of the most eye-opening and worthwhile PTA event to attend.

Dance, Laugh & Sing with SCOTTY of Scotty & Lulu!

Chief Coordinator 統籌委員：Mrs Wendeline CHANG

Scotty managed to get all the children in the room to get all silly and in the party mood. They all started to BOUNCE and WRIGGLE & TWIST to the music in front of the stage!

Even after an hour-long performance, Scotty simply didn't let the fun stop. He invited all the children to go on stage to sing and dance with him! Everyone, including the adults, had a real blast with their 3 minute stardom.

The fun-filled afternoon was wrapped up with the surprise appearance of Santa and a nice little X'mas present for every kid.

Mrs Irene HO
Mother of Tyrus HO (K2A3pm, HH)

Once started, Scotty immediately brought the show alive by naming himself "Potty"! The children's excitement was further boosted with familiar nursery songs such as "Keeping Fit", "Heads, Shoulders, Knees & Toes", "Five Fat Sausages", etc. The PTA coordinators were thoughtful enough to reserve a dance floor right in front of the stage for some little booty shaking!

The highlight was definitely Santa Claus who suddenly popped out from the back of the hall! All the kids just rushed to him as he emerged. Not only was he one of the highlights of the event, he was also very patient about taking photos with each child.

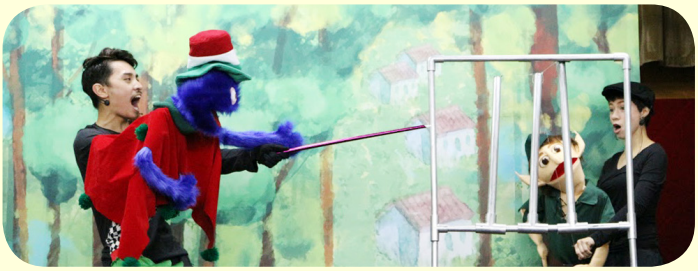
Puppet Show and Workshop - The Magical Adventure of Peter Pan

Chief Coordinator 統籌委員：Mrs Eva LAI



It was a lovely puppet show made up of enchanted classic characters such as Peter Pan, Tinkerbell, Captain Hook, and a new character called Spark. The puppeteers created an easy-to follow yet engaging and interactive story line that allowed children to get up on stage and help out with the characters on their quest to find magic within us.

After the puppet show was over, there was a fun workshop where parents and children alike were guided on how to make their own hand puppets using brown paper bags, scissors, and glue! The puppets consisted of a female and male Victoria bear, each with their own set of pirate-themed accessories such as pirate hats, hand hook, and parrot. All in all everyone seemed to have an enjoyable Saturday morning!

South Horizons Campus-based Activity - Bubble Bath Workshop
海怡校舍校本活動 - 泡泡浴工作坊

18-11-17

Chief Coordinator 統籌委員：Mrs Shirley WONG

Want your kids to play or clean? Why not both! After many trials and errors testing on different ingredients and working through different humidity from summer to autumn, from sunny days to rainy days, I am delighted to be hosting the Bubble Bath Workshop to share my passion and experience in making bath bombs and bubble bars with families at the South Horizons Campus! I have selected some of the most natural and non-irritative ingredients available around the world, and come up with failproof recipes that are easy for children. The ingredients are vegan and glitters are biodegradable to ensure minimal environmental impact while having bath time fun. To encourage children's creativity and utilise tools that are easily available, instead of using professional moulds, we used plastic Christmas ornaments, playdough and cookie cutters to shape the bath bombs and bubble bars. With the support of our Principal, teachers and lovely PTA committee members, we had lots of fun pouring and mixing throughout the workshop. These bath bombs and bubble bars are the perfect addition to bath time for children and adults, they also make the best gifts and party favours!

O Christmas Tree, O Christmas Tree... this year, our little ones planted their mini Christmas trees from the Netherlands in pots filled with sparkling colourful sand. They also enjoyed treasure hunt in the lucky dip, and found all kinds of miniatures to decorate their Christmas bonsais, from Christmas balls to nicely wrapped presents, Santa to animals in Christmas outfits. They even decorated the bags by golden ribbons and stickers featuring our Victoria bears to bring their lovely Christmas bonsais home!

With the start of a new school term, parents are keen to seek out the most suitable primary schools for their children. On Oct 13, 2017, HG campus parents were very honored to have 10 parent alumni return to our school and shared with us their children's primary school experiences. Through this sharing, parents gained insights into the reality of primary schools, and how students have transitioned and adapted into their primary school lives. By the end of the night, parents were surprised to find out how different their expectations are from reality. With a better understanding of the schools, they can now make a more informed decision considering the right school for their children.

Special thanks to all 10 parent alumni for sparing their time to do this sharing with us, as well as the endless support from HG campus school team on this event.

"Tis the season to be jolly..." Over 80 families from the Harbour Green Campus have joined us in the Christmas Music Box Workshop on the first Saturday of December. Students and parents have demonstrated their creativity and artistic talents to design their own music boxes with a variety of Christmas figurines and materials. Mr Santa, snowman and reindeer have been spotted on pearly white snow. Mistletoes and trees are decorated with shiny glitters and colorful cotton balls that are most eye-catching. The unique music box created by our children has become a truly memorable gift for this festive season. We have all enjoyed a wonderful morning and a quality parent-child time as an excellent wrap up for Year 2017.

Red pockets (Lai See) have long been our tradition for passing the luck and blessing from generations to generations. You can easily find any kind of red pockets that might suit your taste in the market but you would never find such unique and special red pockets until you have participated in this workshop. Big hands and small hands of the 36 families in the HG campus worked together to design the personalized Lai See on Jan 13, 2018. Under the guidance of the professional art teachers, the talented little Lai See designers marked their love and blessing onto their masterpieces which would then be converted into a hundred machine printed red packets for conveying the joy and fun in the upcoming Lunar New Year. We are so glad to witness the sweat and smile of the students and parents in this meaningful event.

Every child like using crayons to paint and color. However, as parents, do you have tons of broken old crayons lying around in your children desk, drawers and boxes? BV Campus and its PTA Committee recognized that there was a fantastic way to turn these old used crayons into something new and, at the same time, to teach our next generation a little something about giving back to the society.

“Crayon Makeover” comprised of two stages. In the first stage, we collected unwanted and used crayons from students. In the second stage, which was scheduled for March, parents and students will work together and “up-cycle” these collected crayons to fun and usable crayons in different shapes and colors. We will then donate these crayons to the International Social Service (ISS) for families and children in need.

Since we have launched the recycling program in January, we had collected quite a handful of unwanted, rejected, broken crayons waiting for their makeover. Thank you students and parents of BV to make this happening. We can’ t wait to turn these crayons that were about to go to landfill to usable and pretty crayons in March!

Chief Coordinator 統籌委員：Mrs Vivien LAU

To encourage parent-school collaboration in children's learning and development, Middle Kornhill hosted a Parent-School Collaboration for the Betterment of Children Sharing Workshop for the PN and K1 parents. Nine K3 parents were invited to share their experiences of collaborating with school in various activities, including servicing in the PTA, international days, storytelling, field trips, and so forth. The workshop was informative to parents about the school life of their children and the importance of their involvement. It was also inspirational through the discussion of future opportunities of how parents could collaborate with school in co-organizing fun and educational activities for the children.

Doctor for a Day at Gleneagles Hospital was an outstanding event that impressed all parents and children who attended. Not only was it a well planned and organized outing for the kids to explore what it is like to work in a hospital, even the smaller details were thought through, from giving out realistic looking stethescopes for the children as gift items, to the impressive backdrop that was setup for photo taking.

Furthermore, the team at Gleneagles was extremely helpful in answering all of our questions and the staff was friendly, patient and very welcoming. This was definitely a rare opportunity for children to experience a joyous and fun-filled occasion at a hospital for a change!

We had a pleasurable Saturday morning with the Principal, teachers and families! On 2 December, families gathered together at LK campus to participate in the Christmas plant jamming workshop. The enrolment was full within one day and we'd like to convey our heartfelt thanks to the school and parents for your support.

During the activity, kids and parents displayed their collaboration and creativity by creating their own unique and beautiful Christmas tree bonsai. The event was filled with joy, laughter and love.

We not only brought home the lovely Christmas decoration, but also cultivated our interest in growing plants. It was a fun, educational and memorable parenting activity for all of us.

On Saturday morning, kids and their parents had pleasurable "music box DIY" experience in our Homantin campus to celebrate Christmas. They enjoyed a few hours of freestyle creativity by putting music box, Christmas tree, cartoon figures, artificial snow on a wooden base covered with snow or grass. Their artworks were spectacular and distinctive and filled the school with joyful Christmas atmosphere. They were excited to share their music boxes with their classmates and teachers. We were happy to see our kids greatly enjoy this event and we always cherish every moment to spend time with good friends, teachers and other families.
